Design Lead at Freed.ai • 2024 - now

- Shipped AI Front Desk 0→1 as designer + PM. Reached early PMF in 6 months; now Freed's #2 revenue stream ($1M ARR, 62 clinics).
- Built Pulse, Freed's first design system — purpose-built for AI-assisted development, cutting feature build time across multiple product areas.
- Hired and led Freed's first product design team — 4 designers covering 6 product pods. Built the crit, hiring, and review processes that scaled the org and raised the craft bar.

Senior Product Designer at Shopify • 2023 - 2024

- Sole designer on Shopify Tax EU — shipped 0→1 from research through launch, streamlining tax collection for 70%+ of Shopify's EU and UK merchants..
- Led generative research with 10 merchants and 5 tax pros that defined the MVP scope.

Product Designer at DevRev • 2021 - 2023

- Built DevRev's first data visualization design system — now powering analytics across 4 product lines.
- Redesigned DevRev's onboarding end-to-end, lifting signup conversion by 40% .

Senior Designer at San Francisco Public Works • 2018 - 2021

- Led design and construction of the Southeast Community Center, coordinating 200+ people across architecture, engineering, civic, and construction disciplines

Designer at Santec • 2016 - 2018

- Led end-to-end architectural projects from concept through construction.

Master of Architecture at Cornell University · 2014 – 2016

Bachelor of Architecture at Zhejiang University · 2010 – 2014

Skills

Design & research: Figma, design systems, data visualization, research, end-to-end product design

Coding: Claude Code, Cursor, React, Tailwind, rapid prototyping

AI: MCP, Anthropic API, prompt engineering, eval design

Leadership: Hiring, team building, design crit, cross-functional partnership
